

HSIP HEALTH CARE RESOURCES

The intent of this document is to assist students in obtaining services. The Health Sciences Immunization Program (HSIP) is not “endorsing” or referring students to any specific clinic or service by providing this information, and does not guarantee the options listed are exhaustive.

We advise students to call clinics or health service facilities for further information prior to making an appointment, to verify the type and cost of services available, and to ensure the provider can meet their expectations.
