

ENVIRONMENTAL HEALTH & SAFETY

UNIVERSITY *of* WASHINGTON

# DON'T FEED WILDLIFE

## KEEP THEM HEALTHY

Human foods can harm animals. Feeding can cause wildlife to stop natural foraging.

## KEEP US SAFE

Fed wildlife can become aggressive to people.

## KEEP CAMPUS CLEAN

Food waste attracts pests and nuisance wildlife. This can damage property and the environment.

## KEEP YOUR DISTANCE

Wildlife can carry diseases that may spread to people, pets, and other animals.

Handling wildlife can be unsafe and illegal.

**HELP KEEP WILDLIFE WILD.**
